

Houston LTUF

Owner /Operator Committee

Owner/Operator Committee

- First meeting held October 6, 2009 at ISA Expo
- Identified initial list of interested members
- Jim Federlein serving as acting chairman
- Since the first meeting, have been soliciting additional interested members

O/O Committee Members

- Badiozzaman, Aarash, Pasadena Refining
- Brueckner, Greg, Bayer Technology
- Drewnowski, Joe, BP, 1 409-945-1735
- Federlein, Jim (Chair), Bayer Technology
- Fisk, Bret, Eli Lilly
- Graham, Rick, ExxonMobil
- Land, David, ConocoPhillips
- Lovuola, Vic, Bayer Technology
- Pollard, Fred, Syncrude
- Thornton, Bernadette, ChevronTexaco
- Virgillio, Quin, Bayer MaterialScience
- Wildey, Sharon, GE Infra Aviation

O/O Topics of Member Interest

- SPI/SAP Interface – Who is using? Experience? Tips?
- SPI Maintenance & Calibration Modules – Who is using? In what capacity? Is the maintenance module sufficient for I&E Maintenance needs? Anyone used the Fluke interface?
- How to police contractors from changing plant standards.
- Best practice for claiming and merging (when and who). Claim & merge issues (e.g. remote I/O, terminal shifting)
- Internal I.T. SPI System & Admin Support (with SPI expertise) for O/O
- Owner Operator SPI functionality gaps (eg. Merge dropping data like "cross-wiring" or Control System Layout)

O/O Topics of Member Interest cont'd

- Tips & Tricks for Internal SPI Networks (eg. Citrix)
- Integration with Maintenance Management System(s)
- Integration issues/gaps with other Systems (DCS Systems, Device Network Systems)
- Best Practices for SPI Hierarchy
- How to make SPI information available through other applications (e.g. Documentation, Sharepoint).
- Upgrading (versions, service packs, hot fixes)
- Archiving of revisions.

O/O Committee Next Meeting

- Tuesday, May 25, 2010 2 – 4 PM EDT via teleconference using Intergraph's facilities.
- Agenda:
 - Presentation by David Land of ConocoPhillips on experience with interfacing SPI and SAP
 - General discussion of topics of interest and decision on next meeting topic and time.
