Houston SPI Technical User Forum

CR# PB-197332 - Perhaps we can get Intergraph to explain why the extreme performance degradation in SPI v2016 will not be addressed until SPI v2019?

1-972315521 - v2016 SP1 Merge performance HF-PB-204790
Created 08/08/2017 15:51:32 | Filed by Rajesh Pancholi from WORLEY PARSONS

Merging a project in v2016 SP1 required four days, the same project merged in v2009 SP4 HF27 required seven hours.
