

~ SPI LTUF May meeting seeking Presenters ~

The next Houston SPI LTUF meeting will be held on May 12, 2011 at Aramco Services Co. 9009 West Loop South, Houston, TX 77069. The meeting will run from 8:00 a.m. until noon and be focused on SPI related issues when executing large projects.

We are looking for members who would be interested in giving presentations on subjects related to SPI. The theme of this meeting will be the use of SPI on large EPC projects and Owner Operating installations. We would like to discuss work share issues pertaining to Project allocation licensing and use of new features. We are also interested in presentations on any of the following topics: **Rule Manager, Telecom Module or Access Rights**. If you would like to give a presentation related to this topic or any other SPI related subject, please contact John Dressel, john.dressel@fluor.com 281-263-2764.

~ Global TUF Meeting at HEXAGON 2011 on June 5 ~

The Intergraph PP&M track at HEXAGON 2011 in Orlando, Florida, June 6-9 will offer an array of great sessions led by experts in the design, construction and operation of plants, ships and offshore facilities. Learn how you can leverage

Intergraph's SmartPlant Enterprise engineering solutions to boost productivity, reduce timelines and ensure data accuracy across the facility life cycle. As usual we plan to have the SmartPlant Instrumentation & Electrical Global Technical Users Forum meeting on the Sunday prior to the conference. Consider this an invitation to attend the SPI / SPEL Global TUF meeting on June 5, 2011. Attendance does not require registration to the conference. For additional information, see: <http://www.intergraphusersconference.com/>

This is a call for papers and presentations to be given at the SPI / SPEL Global TUF meeting. Presentations may focus on your experiences with SPI or SPEL, success stories and work processes. This year we would like to focus the combined meeting on SmartPlant Foundation Integration and the SPI / SPEL Interface. The breakout sessions will of course focus on specific issues surrounding the individual application of SmartPlant Instrumentation and SmartPlant Electrical. A tentative agenda and additional information may be viewed on the Global Technical Users Forum website at <http://www.spi-ltuf.org/GTUF/>. If you are planning to attend we ask that you submit an RSVP so we can get a headcount to John Dressel, Global TUF Chair john.dressel@fluor.com or Alex Koifman (Intergraph), SmartPlant Instrumentation Product Manager, alexander.koifman@intergraph.com. We would also like to invite you to do a presentation on your experiences with SPI or SPEL.

~ Post your Change Requests to the CR Ranking Website ~

This is a reminder to submit your outstanding Change Requests to the TECHNICAL USER FORUM Change Request Ranking Website <http://www.sptuf.com/>. This mechanism is used to rank the change requests before submission to Intergraph so

they have an idea as to the priorities of the SPI and SPEL user communities. You may also wish to visit the site periodically to rank the Change Request to have your preferences included in the ranking.

~ **SmartPlant® Instrumentation Represented on LinkedIn** ~

Intergraph and SmartPlant Instrumentation enjoy a very active and comprehensive presence on LinkedIn. If you are not already a member of LinkedIn you probably should be.

LinkedIn is the world's largest professional network on the Internet with more than 100 million members in over 200 countries and territories. The LinkedIn website launched in 2003 and currently counts executives from all Fortune 500 companies as members. The advantages of professional networking over social networking is best summed up as business focus. Unlike Facebook and Twitter which is often blocked by corporate firewalls, LinkedIn actually hosts company and product pages that are maintained by the companies to provide better communication among their employees and clients.

Some groups that you will find on LinkedIn that are:

[Intergraph Corporation](#) is the leading global provider of engineering software that enables customers to visualize complex data. Join this group to get the latest and greatest information about Intergraph happenings.

[SmartPlant Instrumentation \(SPI\) INtools](#) users group designed to allow users to communicate and share knowledge about SmartPlant Instrumentation

[INtools - \(SmartPlant Instrumentation\)](#) group with the purpose of increasing the knowledge in the use of SmartPlant Instrumentation. Also it is forum on areas that can be improved with the use of SmartPlant Instrumentation.

[Hexagon International Conference](#) Join this group to get updates on Hexagon's annual flagship users' conference, dedicated to helping customers move the world forward with our technology.

Companies are also linked on LinkedIn. Chances are that your company is also represented.

[LinkedIn Intergraph](#) is the leading global provider of engineering and geospatial software that enables customers to visualize complex data. Subscribe to updates on <http://www.intergraph.com/subscribe.aspx>
